Datacentre

Services & Solutions that focus on Computer room infrastructure from leading technology partners

Microsoft Storage Spaces Direct	Server and Ready Node hosted virtualisation
Microsoft Azure Stack HCI	Server and advanced Microsoft HyperConvergence
VMware vSphere	VMware Software Defined Datacentre & virtualisation
VMware vSAN	VMware Software defined storage and Hyperconvergence
Dell EMC VxRail	Advanced integrated VMware based Hyperconvergence
Dell EMC PowerStore	Dell Next generation storage design and implementation
Dell EMC PowerVault ME	Dell general purpose storage design and implementation
Dell EMC Compellent	Dell established storage expansion and support
Dell EMC EqualLogic	Dell Legacy modular storage migration and support
Dell EMC PowerEdge Servers	Market leading server infrastructure implementation
Microsoft Active Directory	Directory services design, update and evolution
Microsoft Exchange Server	On-premises & Cloud management & integration
Microsoft Exchange Online	Deployment and directory integration and routing
Microsoft Hyper-V	Microsoft virtualisation deployment & evolution
Microsoft Azure	Cloud Solution Provider deployment services
Microsoft Office 365 Suite	Cloud Solution Provider deployment services
Microsoft Windows Server	Foundation expertise in all things Windows Server
Dell EMC Ready Nodes	Server appliances for VMware & Microsoft HCI
APC UPS	Implementation and configuration of advanced UPS
Mail platform migration	On-premises or cloud transition for email services
Virtualisation platform migration	System upgrade and conversions specialists
Co-location integration	Design, implementation & support of diverse systems
Cloud integration specialists	On-premises and cloud infrastructure integration
Cloud ingress & egress services	Experienced services supporting Datacentre transitions

Data Protection

- Dell EMC DataDomain**
- Dell EMC DP4400 & DPA**
- Cryoserver Email archiving**
- Microsoft System Center DPM**
- Veritas BackupExec**
- Veeam B & R**
- Veeam B & R for Microsoft 365**
- Veeam Cloud Connect**
- Microsoft Azure backup**
- System replication solutions**
- Veeam Availability Orchestrator**

Services & Solutions designed to backup, recover & store business data both on-premises & in the cloud

- Advanced deduplication and backup vault technologies
- Fully integrated backup and retention appliances
- Compliance capable mail archive and retrieval
- Microsoft backup and replication technology
- Established backup systems and devices
- Advanced virtual platform backup, replication and DR
- Cloud backup of Microsoft 365 hosted data
- Cloud backup of on-premises virtualised infrastructure
- On premises backup to Microsoft Azure
- Hyper-V and VMware VM replication solutions
- Disaster Recovery orchestration & automation

Security

- Microsoft Defender**
- Microsoft BitLocker encryption**
- Microsoft Azure CA & MFA**
- Microsoft Federation Services**
- Always on VPN**
- Digital Certificates**
- Azure Application proxy & ARR**
- SonicWall NexGen Firewall**
- Forcepoint Mail & Web Filtering**
- Symantec Anti-Virus**
- Fortinet NexGen Firewall**
- Draytek Vigor Firewall**

Services & Solutions providing enterprise level protection for networks and business data

- Integrated device protection from Windows
- Desktop encryption design and implementation
- Conditional & Remote access security technologies
- Cloud & On-premises Active Directory integration
- Simple, seamless office resource connection
- Mixed use, Certification infrastructure configuration
- Web access application separation & security
- Internet security solutions with the SonicWall range
- Efficient, centralised cloud hosted Email & web security
- Trusted desktop and server Anti-Virus
- Internet security solutions with the Fortinet range
- Integrated remote office network solutions

Networking

Dell S, N & X Series Networking

Services & Solutions to design & install Networking solutions scaling from single point to the campus class

Cisco Networking

Advanced and integrated solutions using the Dell range

HP Networking

Advanced and integrated solutions using the Cisco range

Netgear Networking

Network integration and evolution

Dell EMC OS10 specialist

Network integration and evolution

Kemp Load balancing appliances

High performance, high availability and failover solutions

SilverPeak WAN optimisation

Appliance based balancing for web access applications

Wide Area Networking circuits

Wide Area Networking software-based acceleration

Fortinet Wi-Fi infrastructure

Supply and management of physical WAN circuits

Aerohive Wi-Fi infrastructure

Secure Wireless access solutions from Fortinet

Cisco Meraki Wi-Fi infrastructure

Wireless solutions from the Aerohive range

Aruba Wi-Fi infrastructure

Wireless solutions from the Meraki range

Wireless access solutions from Aruba range

End user computing

Windows Virtual Desktop

Services & Solutions providing enterprise level protection for networks and business data

Microsoft RDSH & RDVH

Cloud hosted desktop services for remote working

Microsoft Intune

On-premises hosted desktop services for remote working

Microsoft Autopilot & MDM

Cloud integrated device management & support

Microsoft Office 365 Suite

Cloud Integrated device deployment technology

Bitlocker encryption

Cloud Solution Provider deployment services

Dell Wyse Thin clients for VDI

Active Directory integrated device encryption

Microsoft System Center SCCM

Personal device solutions for VDI and remote working

VMware Horizon

Setup and optimisation of SC-Configuration Manager

Batch personal device deployment

Advanced VDI solutions using VMware Horizon

Efficient customisation of Laptop, Desktop and tablets
